Introduction

Enjoy over 5,000 classic books on DVD. The RocketReader eBook Classic Collection is indexed by author and reading level, so you can easily find reading material at the right level of challenge. The eBooks are in HTML format, so you can use them with other programs such as RocketReader. Ideal for families with children and recreational readers.

System Requirements

· PC, Mac, Linux or PDA
· DVD ROM drive
· Runs from the DVD or 3 GB of free hard drive space, if installed

Operating Instructions

You have two options as to how you use the RocketReader eBook Classic Collection:
1. Run it entirely from the DVD;
2. Install it on your computer.

Using the Collection from the DVD

1. Place in the RocketReader eBook Classic Collection DVD into your DVD drive.
2. Load the index page for that DVD into your web browser to browse the contents. For example, if your DVD drive is drive E: first run your web browser and then type: E:\\index.html
    into the URL address area of your web browser.

Installing the Collection on a Computer

To install the entire RocketReader eBook Classic Collection on your computer, you need 3 GB of available hard drive space. The collection is large. A hard drive installation may take up to two hours or more depending on your system specifications.

1. Check that you have the available hard drive space. Run *My Computer* by pressing the Window Key and the E keys down at the same time. Right click on local disk C: and choose the *Properties* menu item. Check the available disk space.

2. Copy the contents of the DVD into drive C. This will provide a master index for the entire collection. To do this run *My Computer* by pressing the Window Key and the E keys down at the same time. Right click on the DVD icon and choose the *Copy* menu item. Right click on drive C and choose paste. Wait for five minutes or so while the files copy across. The files will be copied into a directory called RocketEbooks.

3. Load the master index page in your web browser to start e.g.
    c:\\RocketEbooks\\index.html

4. Create a shortcut by right clicking the desktop and selecting *New | shortcut* and then enter the location of the index, e.g.
    c:\\ RocketEbooks \\index.html
    and follow the prompts.
